Fall 2008: 2020 Bluestone Dr. • St. Charles, MO 63303

ABOUT THE DOCTOR: Kyle Donahue D.D.S., graduated from the University of Missouri—Kansas City in 2000 and completed the University of Missouri—Kansas City's Combined Prosthodontics Graduate Program in 2003. He is a member of the American Dental Association, the Missouri Dental Association, the Greater St. Louis Dental Society, the American College of Prosthodontics and the American Academy of Implant Dentistry. Dr. Donahue is licensed as a Prosthodontist Specialist in Missouri.

PHILOSOPHY OF CARE: To provide patients with excellent oral health care in a friendly environment.

NEWER INNOVATIONS: This year, Donahue Dental completed the transition to digital and is now able to offer digital X-rays along with showing pictures of the teeth using the latest intra-oral cameras. This, in conjunction with the CEREC machine for crowns, inlays and on-lays, has significantly cut back the number of patient visits for restorative needs. In some cases, it also allows for same day dental restorations.

REWARDING PATIENT EXPERIENCE: "Seeing someone who was unable to smile with confidence—either because of tooth loss or tooth configuration—laugh and smile as they leave our office after their restoration is complete. That is amazing," says Dr. Donahue.

MOVING FORWARD: As Donahue Dental plans a move this fall to a larger facility at 2020 Bluestone Dr. in St. Charles, the possibilities are endless. "We will be able to combine our state-of-the-art equipment with a state-of-the-art facility to truly offer our patients the best of everything dentistry has to offer," Dr. Donahue says.

FREE ADVICE: "It's all about the fundamentals," Dr. Donahue says. "Brush and floss every day, and see your dentist for routine cleanings. Most dental ailments can be avoided with routine care."
